SUMMARY

I am an IT undergraduate passionate about technology and software development. With strong skills in programming and problem-solving, I have successfully led and contributed to various projects. I have engaged in coding challenges and collaborated within coding clubs to improve my skills. Through my volunteer experience, I gained valuable communication and leadership abilities while promoting tech awareness.

EXPERIENCE

Open source contribution

GitHub

10/2024 - 10/2024

Organization focuses on technology awareness and education.

- Contributed to an open-source project on GitHub during Hacktoberfest by adding a new "Image" page to the website's navigation menu.
- Collaborated with other developers by participating in discussions and code reviews, helping to maintain a positive and productive team environment.
